

April is excited about her new adventure as a fifth grade teacher. She graduated from the University of Montana with a B.A in Elementary Education in 2002. April has been at St. Joseph since 2003 as a 6th grade teacher of Math, Science, and Theology, a 7th and 8th grade teacher of Math and Theology. She is currently expanding her mathematical and scientific knowledge through the Southwest Montana Science Partnership at Montana State University (although she remains true to the Griz!)

April has been blessed with a wonderful family both immediate and extended. April and her husband Dave have been graced with three of the most amazing children; Kinsey (St. Joes 7th), Kaylor (Russell 4th), and Kellan (St. Joes 3rd) along with their most recent addition Florence (Belgium). They are very lucky to have many grandparents, aunts, uncles and friends nearby along with their extended family at Missoula Catholic Schools.

When she is not teaching or grading, April can be found watching baseball games, working backstage at dance recitals, or spending time with family and friends at Placid Lake.
